

HOW TO INPUT YOUR MEDICAL ID

ANDROID

1) OPEN "SETTINGS"

Unlock your phone so you see the screen with all of your apps - open settings. Sometimes you might have to swipe down from the top of your screen to view settings

2) SCROLL DOWN TO SAFETY AND EMERGENCY - OPEN IT

You can also type "safety" in the search bar to have it show up

3) ON THE CURRENT SCREEN YOU WILL SEE "MEDICAL INFORMATION" - OPEN IT

This is where you will be able to input your medical information so it's accessible to first responders

4) TAP ON EACH ITEM TO PERSONALIZE MEDICAL INFO

Ensure you input current and accurate information under each heading

EXIT TO PREVIOUS SAFETY AND EMERGENCY SCREEN

5) INPUT/IDENTIFY YOUR EMERGENCY CONTACTS

Click on Emergency Contacts - This will show the phone numbers of who to contact in case of an emergency

6) TO ALLOW ACCESS TO EMERGENCY RESPONDERS - CHANGE SETTING - AT THE BOTTOM OF THE SCREEN

To help in an emergency, first responders can view this info without unlocking your device

Allow access to emergency info

7) TO ALLOW EMERGENCY ACCESS - TOGGLE TO THE RIGHT

Your information and emergency contacts will now be accessible from your lock screen

YOU HAVE NOW COMPLETED THE SET UP OF YOUR EMERGENCY MEDICAL ID
